

Keep Your Nerve

It is nerve energy that runs the organs of your body. The storage battery is the nerve cells in the brain and spinal cord, and from this battery nerve force is sent out through the system of nerves. To keep the body healthy you must have plenty of nerve force; if you have not, the organs work imperfectly, the circulation is sluggish, digestion bad, appetite poor, kidneys inactive, and aches, pains and misery are the penalty.

You can keep the system strong with Dr. Miles' Nervine. It assists in generating nerve energy; it strengthens the nerves and makes the whole system strong and vigorous.

"I take pleasure in recommending Dr. Miles' Nervine to those suffering from nervous prostration, insomnia and melancholy. After several months suffering from above diseases I tried this medicine and found immediate relief. It soothes and strengthens the nerves, chases away the gloomy and depressing thoughts and gives the sufferer renewed strength and hope. It is a superb nerve restorer."

OVER A SCORE DEAD

EXPRESS TRAIN ON THE LONDON AND SOUTHWESTERN RAILWAY WRECKED.

AMERICANS ARE THE VICTIMS

PASSENGERS FROM THE STEAMER NEW YORK KILLED IN THE ACCIDENT.

DELAY SAVED MANY LIVES

LATE ARRIVAL OF THE VESSEL PREVENTED A GREATER LOSS OF LIFE.

Salisbury, Eng., July 2.—Traveling at a mad pace over the London and Southwestern railway, the American line express, carrying forty-three of the steamer New York's passengers from Plymouth to London, plunged from the track just after passing the station here at 1:57 o'clock a. m. and mangled to death in its wreckage twenty-three passengers who sailed from New York on June 23, and four of the trainmen. Besides those to whom death came speedily, a dozen persons were injured, some seriously.

Following is the list of the first cabin passengers who were killed:

Walter Barwick, Toronto, Ont.; Louis Cassler, Trumbull, Conn.; Frederick Henry Cossitt, New York; Mrs. C. W. Elphicke, Chicago; Dudley P. Harding, New York; Mrs. L. N. Hitchcock, New York; Miss Mary F. Howieson, New York; Rev. E. L. King, Toronto, Ont.; Frank W. Koch, Allentown, Pa.; John E. McDonald, New York; C. K. McMeekin, New York; C. A. Phipps, Toronto, Ont.; Mrs. E. W. Sentell, New York; Miss Blanche M. Sentell, New York; Miss Gertrude M. Sentell, New York; Mrs. Walter W. Smith, Dayton, O.; Miss Eleanor Smith, Dayton, O.; Gerard Smith, Dayton, O.; Mrs. Lillian Hard Waite, New York.

The following second cabin passengers are dead:

Louis Geopinger, Jules Keeler, W. H. Thompson, addresses unobtainable.

Delay Saved Many Lives.

The late hour of the New York's arrival at Plymouth saved many lives. She carried more than sixty travelers for London, but many of them elected to travel on comfortably to Southampton in preference to the late landing at Plymouth and the long night ride across the country. If the New York had made a faster passage the sombre roster of the dead and injured would have been larger.

The big American line steamer reached Plymouth at 9:35 o'clock at night and half an hour later there was a tender alongside to receive passengers for England. Several who had planned to debark and packed their baggage, decided at the last moment to remain aboard. It was a fateful decision, though not dictated by any fear. The run across the Atlantic had been pleasant. There were cheery partings when the passengers for London transferred to the waiting tender, which steamed for the Devonport landing, where the express was lying, made up. The train consisted of a powerful express engine, three first-class corridor carriages and one combination guard's van and buffet. The passengers were soon entrained and at 11:30 the express pulled out. It was given a clear track on the run of 230 miles to London, on which the express generally maintains an average speed of a mile a minute.

Coaches Began Swaying.

Driver Robins quickly gave the engine her head and the special was soon speeding swiftly through the night. It ran on safely and without incident until it entered the long railway yard of Salisbury, when the passengers noted that the coaches began swaying from side to side. Suddenly at the end of the long platform, when the track begins to curve toward the bridge spanning Fisherton street, the main avenue of the city, the engine seemed fairly to leap from the track. It swung across the adjoining track with terrific force and destroyed the guard's van of a milk train that was slowly steaming in the opposite direction, killing a guard, launching forward, the locomotive plunged against the standards and girders of the bridge. The bridge stood the impact and rebounding the engine crashed into another engine that was standing on a siding and overturned. The wreckage of the two

engines interlocked in a great broken mass of twisted steel and iron.

Throughout the wild plunging of the engine, Driver Robins, whether alive or dead, remained in his cab. Hours afterward his charred body was found grilled over the firebox.

The first coach shot over the engine and careened onward until it was hurled against the parapet of the bridge and smashed into fragments, killing or maiming almost every occupant. One man was shot through

the window, cleared the parapet and fell to his death to the street below.

The second coach lurched forward and rolled towards a stationary train and practically destroyed itself before its wild fight was ended.

The third coach dashed forward with the rest, left the rails and encountered some obstruction, overturned and collapsed.

Saved by Guard's Courage.

The guard's van and buffet, the rearmost car of the train, was saved by the courage and quickness of Guard Richardson. With the first shock Richardson jumped forward and set the brakes and saved himself and comrades. The van plowed forward, injuring some of its occupants, but practically maintained its equilibrium.

The surviving passengers and trainmen describe the shock of the wreck as like the discharge of heavy guns of varied caliber and when the crashing of the wreck was passed, then came cries of the injured, some shrieking with pain and fear and others moaning as if bewildered by the shock.

Relief came quickly, although it was an hour before the last body was dragged from the wreck. The police, attracted by the noise, called ambulances and surgeons and warned the hospitals to prepare to receive the injured. The railway yard quickly filled with police, doctors, nurses, trainmen and volunteers.

The darkness and incredible destruction made the work of rescue exceedingly difficult. Lamps and torches were brought to light the desolate scene. The station was converted into a surgery and the platform was made a mortuary. Several of the dead and injured were imprisoned in compartments and it was necessary to saw away the partitions in order to effect their release. Others were caught under heavy wreckage. Several of the bodies were badly mangled and one woman was decapitated.

CLOSE CALL FOR M'CLELLAN.

Mayor of New York Decided Not to Travel on the Train.

London, July 2.—By the merest chance Mayor George B. McClellan of New York was not on the wrecked special train. He had an appointment to keep in London and although the steamer was late in arriving at Plymouth, he decided to come direct to London instead of going to Cherbourg with Mrs. McClellan, who was booked through to Paris. His hand baggage had been transferred to the tender to land at Plymouth and he was going on board the tender when an officer of the steamer whom Mrs. McClellan had been asking to urge her husband to accompany her to Cherbourg told the mayor he could still reach London in time to keep his appointment if he went on to Cherbourg and thence to Southampton. Just before the tender left the ship's side Mayor McClellan changed his mind, and the ship's steward threw his baggage back on board the New York as the tender was casting off her lines.

John E. McDonald, the New York horseman, best known as "Jack" McDonald, who is among the dead, was given the compartment on the special train which had been reserved for Mr. McClellan and so the mayor's escape was indeed the narrowest.

Mr. McClellan will remain in London a week and then will join his family in Paris.

IMPORTANT DEVELOPMENTS.

Expected in the Thaw Murder Case This Week.

New York, July 2.—Important developments in the Thaw murder case are expected this week. District Attorney Jerome has returned from a fishing trip to Cape Breton especially to direct the work of preparing the prosecution's case against Thaw. All the circumstances surrounding the killing of Stanford White will be gone into thoroughly. Realizing that the attorneys for Thaw are plentifully supplied with funds to bring out all evidence favorable to the defense, the district attorney's office is working to get all reliable evidence bearing on the events of the several weeks before the shooting. District Attorney Jerome said in an interview at St. John, N. B., that as there are eighteen murder cases ahead of Thaw's that the Thaw trial probably will not be reached before October.

Insane Man a Suicide.

Peoria, Ill., July 2.—Insane from ill health and worry, William Bowman, a railway yardmaster, drove his wife and three children from his house in this city at the point of a revolver and then shot himself, dying within an hour.

FATAL MINE ACCIDENT

RUNAWAY CARS DASH DOWN THE TRACK INTO FAYAL MINE AT EVELETH, MINN.

FOUR PERSONS ARE KILLED

WORKMEN CRUSHED TO DEATH BENEATH TONS OF IRON ORE AND OTHER DEBRIS.

Eveleth, Minn., July 2.—At least four men were killed in a wreck in Fayal No. 3 extension pit at 10:20 p. m. and other bodies may be found. Five steel cars, loaded with over fifty tons of iron ore each, dashed down the grade into the pit and struck a Drake & Stratton shovel in the stripping and buried the crew in ore and debris. The dead are:

James Sullivan, brakeman; William Chappel, fireman, aged twenty-two; Love May, water boy, aged fourteen; John Rinda, a pitman.

Jake Rinda, father of John, is in the Fabiola hospital, not expected to live. Another man is injured.

The bodies were not all recovered until a o'clock in the morning. The bodies are in the Gleason morgue, except Chappel's, which was taken to his father's home.

Deputy Coroner J. J. Gleason will hold an inquest.

The five cars were the first pulled out on the track running into the pit. Then they started to run back. The pit is over seventy-five feet deep and the heavy cars were soon running at a speed that must have been about 100 miles an hour. One of the employees on a shovel shouted, "Here come our empties, boys." Then he gasped as they went past like a flash.

At the end of the track they jumped a bank of ore ten feet high and smashed into the back end of the Drake & Stratton shovel in the stripping.

Bob Jefferson, the engineer, and Jerry Wilson, the cranesman, were both on the shovel at the time, but they escaped uninjured.

DEED OF AN UNKNOWN MAN.

Kills One Man and Fatally Wounds Another.

Springfield, Ill., July 2.—A man unknown to the police in endeavoring to escape arrest, killed Benjamin Lederle, wounded Police Sergeant Fehr probably fatally, stole a horse and buggy and fled with hundreds of citizens, led by Mayor Devereaux and guided by bloodhounds, on his trail.

Sergeant Fehr was informed by telephone that a man was trying to sell a bicycle, evidently stolen, at a pawnshop. Fehr went to the shop and arrested the man.

The man quickly drew an iron bar from his hip pocket and felled Fehr, struck him a second blow and fled over the prostrate sergeant, taking the officer's revolver.

Lederle, seeing the assault, chased the thug up an alley. Being cornered the man turned and shot Lederle dead. Re-entering the street, the murderer untied a horse from a hitching post, jumped into the buggy and drove rapidly out of town, standing off all pursuers with the sergeant's revolver. Mayor Devereaux, hearing of the affair, headed a quickly formed troop of pursuers, but up to a late hour had not apprehended the fugitive.

THREE DIE AT MILWAUKEE.

Series of Fatal Accidents at That Place.

Milwaukee, July 2.—Three fatalities, two resulting from injuries and one from drowning, were reported here. The dead are:

John Fischer, eleven years of age, was caught between car and center pole while stealing a ride on a street car.

Robert Visselmann, twenty-one years of age, drowned on the upper Milwaukee river while swimming.

Robert Hirsch, fell from a hay loft.

CONFESSES TO MURDER.

Nebraska Woman Admits Having Killed Her Sister.

Nebraska City, Neb., July 2.—Miss Lucy Lloyd, aged thirty-four, has confessed that she choked her sister, Miss Della Lloyd, aged thirty-seven, to death Saturday night at their home on a farm near here. The elder woman, who was killed, had been losing her mind and while brooding over this and the separation that would result from it, the younger woman stepped up behind her sister as they were preparing for bed, and killed her and then remained beside the corpse all night. The two women lived alone on their farm.

NEGRO LYNCHED BY A MOB.

Taken to the Scene of His Crime and Hanged.

Chickasha, I. T., July 2.—A negro who committed a criminal assault upon the sixteen-year-old daughter of a Robertson near Womack was captured at night and after being taken back to the scene of his crime was hanged and burned near the spot where he committed the deed. He confessed and offered no resistance to the mob. To one person the negro gave his name as Cliff Mays of Marshall, Tex., and he told another that it was Will Newbright of San Antonio. By the time the negro was overtaken near Bradley fully 400 men had joined in the chase and soon after the capture the march to Womack began. It was nearly 3 o'clock in the morning when the Robertson home was reached and the negro was brought before the assaulted girl.

"That's the one" said she at once and the negro replied "Yes, lady, I'm the one. Gentlemen, I admit the crime."

The mob then proceeded with their victim past the spot where he had committed the crime and he was hanged to a tree nearby.

Before life was extinct the body was lowered to the ground, when logs and brush were heaped upon it and the mass ignited and the flames soon completed the work.

Two hours later the charred body was buried under the same tree under direction of a deputy marshal from Purcell, who had been thwarted in his efforts to take the negro from the mob.

AUTOMOBILE TURNS OVER.

Three Occupants of the Car Severely Injured.

South Bend, Ind., July 2.—Running thirty-five miles an hour, an automobile owned and driven by Postmaster D. A. Shaw of Mishawaka, Ind., turned over three times at Osceola, severely injuring Shaw and three other occupants of the car. Mrs. J. A. Winn, and Mr. and Mrs. S. W. Schuyler. It is said the accident was caused by the failure of the steering gear to work at a curve in the road. Mrs. Winn, wife of an Episcopal preacher at Mishawaka, was the most seriously hurt, both of her legs being broken, besides the internal injuries she sustained. The four occupants of the automobile were unconscious when found and it is feared that one or more fatalities may result from the accident.

Tromsø, Norway, July 2.—The Walter Wellman-Chicago Record-Herald's steamer Frithjof has arrived here from Spitzbergen, where she left Major Hersey and eighteen others, comprising the first section of the expedition. The supplies were safely landed at Dane Island, huge blocks of ice being used as rafts to convey the cargo ashore. An immediate start will be made with the erection of the airship shed within a few hundred yards of the spot from when S. A. Andree made his fatal ascent June 15, 1896.

Mr. Wellman will start for Spitzbergen July 4.

RIOT AT A COAL MINE.

One Miner Killed and Several Others Wounded.

Wheeling, W. Va., July 2.—The Bradley mine of the United States Coal company was the scene of a riot in the afternoon in which one miner was killed and a number wounded, as well as several guards. The trouble, it is said, was started by the guards, who, it is claimed, were drinking and soon the mining town was the scene of much confusion.

Hundreds of shots were fired. The trouble occurred when all the miners' officials were away spending Sunday at their homes.

IT'S YOUR KIDNEYS

Don't Mistake the Cause of Your Troubles—A Brainerd Citizen Shows how to Cure them.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney pills. It cures all ills which are caused by weak or diseased kidneys. Brainerd people testify to permanent cures.

Alfred Towers, painter at the N. P. shops, and living at 419 Second Ave., N. E., Brainerd, Minn., says: "The doctoring, drugs, medicines and other treatments which Mrs. Towers had tried in the effort to cure a bad case of kidney complaint proved of so little benefit that the discouragement almost made her an invalid. A long time ago she had used Doan's Kidney Pills in a haphazard way, and she decided to take them carefully according to directions. A supply of the remedy was procured at H. P. Dunn & Co.'s drug store and the improvement in her condition was nothing less than wonderful. They certainly proved a life saver, and I feel sure there will be no return of the trouble."

For sale by all druggists. Price 50 cents. Foster Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name—Doan's—and take no other.

Moulders and North Stars Pull Off Ball Game Despite Orders of Owner of Grounds

AGENT HAD ACCEPTED RENT

Boys had Grand Stand Examined By Building Inspector and Competent Architect

A. A. White, of St. Paul, owner of the Athletic Park made strenuous efforts to stop the benefit ball game played yesterday by the local Moulders and the North Stars. As stated in THE DISPATCH, Saturday he telephoned this paper to announce that there would be no game at Athletic Park.

Mr. White also wrote the chief of police and sent a special delivery letter to Jack Boyle instructing them to stop the game. The moulders, however, had paid Mr. White's agent for the use of the grounds and he had turned over the keys. In order that there might be no question as to the condition of the grand stand the boys had it inspected by the city building inspector and a competent architect, both of whom declared it in perfect condition. The moulders declare that the attempt to prevent the game was because of the object; that it was an attempt on the part of the employees in St. Paul to prevent the striking moulders of that city being thus assisted. Be this as it may, the attempt to stop the game was entirely unsuccessful. Possession is nine points of the law, and nothing short of an injunction or the arrest of the players would have stopped the game yesterday, though the crowd was reduced some by the announcement that the grounds would not be used. Still there was the largest crowd out seen there this year and they were rewarded by seeing a good game of ball played.

The game was played throughout. There seems to be some misunderstanding.

ing as to the score, the moulder claiming it to have been 4 to 9 in favor of the North Stars, while the score of the latter team made 3 to 10 in their favor. John Burns pitched the game for the Stars with "Tug Wilson" behind the bat. The battery for the Moulders was Anderson and Anderson. One of the features of the game was the work of young Erickson, of Southeast Brainerd, who played second for the Stars. He has been playing with Pillsbury high school, Minneapolis, this season and is certainly fast.

THE DISPATCH was notified over phone by the moulders that the game would be pulled off despite Mr. White, but at too late an hour to receive insertion.

Items of Interest Regarding Railroads and Railroad Employees

The Minnesota & International had a small wreck at Parkville yesterday, caused by breaking of the journal of a log car. Only one car went in the ditch and passenger traffic was not interfered with.

The work of graving the Ripple extension of the M. & I. is practically completed. A work train crew brought one of the steam shovels down from there this morning.

Iowa's new anti-pass law goes into effect tomorrow, and twin city railway men are studying up on its provisions. The statute provides a penalty for issuing passes to city, county, district, state or federal officers, including judges and members of the general assembly of Iowa, delegates to any political convention, members and employees of any political committee, candidates for political offices and jurors in state or federal courts. The law does not apply to notaries public and persons having an office that pays no fee or salary.—St. Paul Dispatch.

EXPERTS WERE CROWDED HARD

Geo. Trent Ties Morrison in 25-Bird Shoot at Wapakuta Club Grounds Saturday.

MALONY WINS THE TROPHY

At Riverside Shoot Trent Tied Morrison in Two Events out of Four.

The much advertised crack shots have been here and gone and scarcely left a ripple behind them. Morrison is a fast man with a gun but Heffard is only an ordinary marksman and was outshot by a number of the local gunners. George Trent crowded Morrison altogether too close for the good of that gentleman's fame. At the Wapakuta grounds Saturday afternoon they tied on 24 out of a possible 25 targets. On the Riverside grounds Sunday morning Trent crowded Morrison hard. In four events of 25 targets each Trent got 92 and Morrison 96. The score of the clubs was as follows, Frank Maloney winning the Ransford trophy on a score of 23. Trent and Morrison were not contesting for the trophy.

SUNSHINE FROM BRAINERD.

Under Above Title the Minneapolis Journal Tells of Doings of Brainerd Sunshine Society.

The Minneapolis Journal has the following account of one of Brainerd's societies for helping others. The president of the society spoken of in the article below is Miss Jessie Thabes, of West Brainerd, whose sweet patience and cheerfulness under suffering are the marvel of her many friends.

"The In-As-Much branch of Brainerd sent a dozen pillowslips for the Mary Davis Sunshine Lodge. Sunshine is very grateful, as plenty of bed linen will be needed. The In-As-Much is one of the new branches, the members of which are all young girls, and it has already scattered sunshine to many needy ones. The president of the branch is an invalid and her patience, and her sunny ways inspired her girl friends to start the Sunshine branch. The meetings are all held at the home of the president, and the girls have found happiness themselves in distributing good cheer to others."

G. B. Burhans testifies after four years

G. B. Burhans, of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am entirely cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble." WIND AT WADENA

Bad Blow There Saturday Evening Frightens Inhabitants and Does Considerable Damage.

Wadena, Minn., July 1.—This vicinity was the scene of a heavy wind and rain storm last evening and every indication pointed towards a cyclone. Windmills were blown down, buildings wrecked and many families sought protection in their cellars.

The top of a box car was torn off and the galvanized iron roofing landed in between the telegraph wires. Considerable grain was lodged and two houses were struck by lightning. No loss of life has been reported.

MARRIED AT ST. CLOUD

F. H. Wilson, Popular Traveling Man Takes Life Partner at City Down The River

The following from a St. Cloud daily refers to F. H. Wilson, the popular representative of the Marshall Wells Hardware Co., who makes Brainerd his headquarters:

"Blanche L. Bethel and Frederick H. Wilson were married at noon on Thursday, June 28. Zula M. Bethel, sister of the bride, was maid of honor. Douglas Wilson, of Duluth, brother of the groom, was best man. The bridal party stood under an arch built of green and white flowers, etc. A wedding breakfast was served immediately after the ceremony. The dining room was decorated in pink and white. Many beautiful gifts were received. Only the immediate friends of the family were present. The bridal party left on the afternoon train for a short trip, after which they will spend the summer at a summer resort at Walker. Mr. and Mrs. Wilson will be at home after September first in Brainerd. Rev. Stark performed the ceremony. The bride was married in white, and is one of St. Cloud's most charming and popular young ladies."

MUSIC AND DRAMA.

"A MESSAGE FROM MARS."

In every neighborhood there in one man, and oftentimes a number of men, who are best known for their intense selfishness. Richard Ganthony, an American playwright, wrote the beautiful comedy, "A Message from Mars" in which he deals some heavy blows at the egotist and selfish man. This play was first placed on view in London, and from the opening night it was voted one of the great successes of that city. It ran there for three years. It was later brought to America and was on view for two consecutive years in New York City. It has never before been presented in this part of the United States. Our theatregoers will have their first opportunity of seeing this famous comedy. It will be presented here at the Brainerd opera house Monday, July 9, with Mr. David Proctor, a prominent young actor appearing as Horace Parker, the hero of the comedy. "A Message from Mars" is said to be a great play in every respect and Mr. Proctor as his associates, a large number of the same players who were in the London and New York companies.

OIL TANKS EXPLODE.

Windows at Portland, Ore., Shattered and Watchman Missing.

Portland, Ore., July 2.—With a force so great that every window within three-quarters of a mile radius was shattered, two tanks of the Union Oil company of California exploded at University Park, a few miles north of the city. Leonard Jaqui, the night watchman, is missing, and it is feared he is dead. Both of the tanks were nearly empty. It is estimated that only 6,000 barrels of oil were lost. This, with the damage to the tanks, amounts to about \$15,000. It is

stated that Jaqui was seen near one of the tanks immediately before the explosion occurred and it is believed that in some manner a spark was communicated from his lantern to the oil. The fire was confined to the vicinity of the two tanks.

TO ASSIST THE PROSECUTION.
Brother of Architect White Arrives in New York.

New York, July 2.—Richard Mansfield White, brother of Stanford White, the architect, who was slain by Harry K. Thaw last Monday night, has arrived in New York from his home in Seattle, Wash., and it is understood that he will take an active part in assisting the prosecution against Thaw. Mr. White is said to be a man of wealth. He said he had no statement to make in connection with the murder of his brother.

JAPANESE STEAMERS COLLIDE.

Twenty-seven Members of the Crews Missing.

Nagasaki, July 2.—The Japanese steamers Hinode and Nachiyel collided near Sasebo and twenty-seven members of the crews are missing. The Hinode was sunk and the Nachiyel was slightly damaged.

CANNOT FIND A MAN

CZAR OF RUSSIA UNABLE TO OBTAIN A SUCCESSOR TO MINISTER GOREMYKIN.

FULLY RESPONSIBLE CABINET

THE ONLY THING THAT WILL SATISFY THE CONSTITUTIONAL DEMOCRATIC PARTY.

Batum, July 2.—The riots among the soldiers here continue. Business here is paralyzed in consequence of the strike in the shipping industry, which has lasted five weeks. Robbery and murder in the streets are of daily occurrence.

St. Petersburg, July 2.—No definite statement with reference to the retirement of the Goremykin cabinet has been forthcoming so far. Emperor Nicholas apparently is encountering trouble in finding a man to whom he can entrust the reins of power and effecting an understanding with the Liberal groups of parliament. The Constitutional Democratic parliamentary committee met behind closed doors to discuss tactics under the new situation. After the meeting it was stated that the committee adhered to its former decision that nothing less than a fully responsible cabinet would be acceptable and that Constitutional Democrats will refuse to take portfolios in any mixed ministry. The leaders scarcely expect that these terms will be accepted at present. Indeed, they have slight desire to shoulder the responsibility of government when the country apparently is on the verge of outbreaks and disorders. Their present plan is to adopt towards any new ministry the same tactics they have followed in the past, the acceptance of what is good in the policy of the government and unsparing criticism if that policy does not square with their ideas. The immediate passage of a vote of lack of confidence is probable. It is stated that Minister of the Interior Stolypin and Minister of Finance Kokovosoff will soon submit to the lower house of parliament a request for an appropriation of \$50,000,000 for the relief of the famine district, one-half of which will be for distribution this year and the other half next year.
—The ministers will oppose the par-

lamentary suggestion that the relief be conducted through the zemstvos and other local bodies, declaring the organization of these bodies is insufficient and that only the administration is capable of effective work.

ENTERS A PLEA OF GUILTY.

Admiral Rojestvensky Admits Surrendering to Japs.

St. Petersburg, July 2.—The depositions of various officers and sailors of the torpedo boat destroyer Bedovy, furnishing the documents in the court-martial of Admiral Rojestvensky and other naval officials who surrendered to the Japanese in the battle of the Sea of Japan in May of last year, have just been published. The sailors' testimony indicates that the admiral's party boarded the Bedovy with the full intention of surrendering to the first Japanese ship they should encounter. Their initial act was to order a white flag prepared. The officers of the staff of Admiral Rojestvensky and the commander of the Bedovy make a pitiable exhibition in trying to shift the responsibility for the surrender on each other.

Admiral Rojestvensky, though he says he was dazed and out of his head all the time, enters a manly plea of guilty because he took no measures to prevent the surrender.

DOUBASOFF RETIRES.

Governor General of Moscow to Leave Russia for Three Months.

St. Petersburg, July 2.—Vice Admiral Doubasoff, whose wounds from the explosion of a bomb thrown at him on May 6 by a naval lieutenant named Holschevnikoff, have not healed, and who walks with a limp, has gone abroad for three months. When he returns he will not resume his post of governor general of Moscow.

AT SAGAMORE HILL.

President Roosevelt Arrives at His Summer Home.

Oyster Bay, N. Y., July 2.—President Roosevelt is at Sagamore Hill for the summer. He was met at the station by Mrs. Roosevelt and Kermit, who had attended early communion. His journey from Washington ended with the three-mile drive to Sagamore Hill, where he remained throughout the day. When the president stepped from the train, Kermit greeted him, Mrs. Roosevelt waiting in the rotunda. Former Sheriff Jerome Johnson cut one more notch in his record of being the first of the townspeople to shake the president's hand, many others in the little gathering at the station uttered words of greeting and welcome. The attempt of a man with a camera to snapshot the president as he greeted Mrs. Roosevelt was interfered with by the activity of the secret service men.

Strike Threatened.

El Paso, Tex., July 2.—Orders have been issued at Phoenix, Ariz., to hold three companies of national guards in readiness to proceed to Morenci and Clifton, Ariz., where a strike is threatened in the mines.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
